

AGENDA: Personalised Healthcare: *The Future of Neurological Care?*

November 3rd – 10.30 to 12.30hrs CET – VIRTUAL MEETING - ZOOM

This event will introduce the concept of personalised healthcare/precision medicine in neurology – with a focus on identifying key themes for those living with neurological disorders and their representatives in the years to come. Leading experts and key stakeholders will share their views, with time for audience contributions and questions. EFNA’s new e-learning series will also be officially launched.

Register now at the following link: <https://forms.gle/GG5fexG6smj9GS6B8>
